

These pages contain all the pieces you need to make a lapbook on the Norse Pantheon as well as some of the mythology.

Basically, all the components can be cut out along their borders, with the dotted lines indicated folds. Use a standard office folder to create a portfolio, and glue all the pieces inside.

There are photos at the end that should show how all the booklets look after folding. You can get as creative as you want to arrange all the bits and pieces. There should be room for everything, the photos are just a suggestion.

The folded pieces open up and information is written in the blank spaces by the person making the book (either you or your child). Graphics can be colored in if you want.

Overall, this project contains the main 8 Norse Deities, the 9 noble virtues, a diagram of Yggdrasil with labels for the 9 worlds, a piece on the Runic alphabet and a flap book with the story of Ragnarok. You'll have to do the research yourself for the information, this is just a set of pages to build the lapbook itself.

Use the alphabet at right to figure out the phrase below, then fill in the blank using more runes. Not all letters in English translate to runes, so you have to get creative sometimes (like use an I instead of a Y, or a K instead of a C).
